

The Pro Boot Wiper is a compact, free-standing boot brush & scraper designed for areas where space is limited. The Pro is perfectly designed to remove mud & dirt from all kinds of footwear, including football boots, wellies, work boots and golf shoes. We are steel fabrication specialists, so obviously the build quality is second to none.

The Pro is a versatile, durable and top-quality boot wiper at an incredible low price. The Pro features a fully welded steel frame will last for years with no risk of loose parts, making it ideal for commercial usage as well as residential.

Due to the base dimensions and self-weighted design, our boot wiper can be operated safely without fixings, meaning that it can be used on almost any surface.

Whether you're a keen gardener and want to store it in your shed and pull it out when the weather turns, or a professional sports club that needs a high-quality shoe cleaning solution for keeping your facilities nice and clean, the Pro boot wiper should be your first choice.
